Dear Swiss Cham SA & SCSA – SA Chapter Officials,

'South Africa, Demography' Questions for SwissCham & FW de Klerk re: de Klerks remarks at Swiss Chamber South Africa in Zurich on Tuesday.

[Q.1] What do SwissCham SA Officials think Prime Minister Verwoerd and the National Party's response would have been to the following hypothetical letter from ANCYL Nelson Mandela on 16 December 1961?

Here follows the hypothetical 16 December 1961 letter from ANCYL Leader Nelson Mandela to Prime Minister Hendrik Verwoerd: **ANCYL Just War Offer: Request Apartheid Government's Political and Financial Support for ANCYL Cultural Campaign that Equal Rights be granted to Africans who adopt K-selected reproductive strategy.**

¹ <https://sites.google.com/site/jbystrova/>

National Executive Committee
African National Congress
Youth League

Prime Minister Hendrik Verwoerd
Apartheid National Party

16 December 1961

Dear Prime Minister Verwoerd,

ANCYL Just War Offer: Request Apartheid Government's Political and Financial Support for ANCYL Cultural Campaign that Equal Rights be granted to Africans who adopt a K-selected reproductive strategy.

It is the conclusion of the ANC National Executive Committee that the primary motive for apartheid is fear of the 'swart gevaar', i.e. the demographic-political consequences of Africans cultural procreation values, which are perceived – rightly or wrongly – by Apartheid officials as a form of 'breeding war'.

Apartheid Officials and citizens 'swart gevaar' population policy fears¹ are legally and ecologically justifiable in terms of the ecological competitive exclusion principle.

Although the ANC and Boers are not in terms of procreation values "culturally similar" enemies, the ANC and Anti-Apartheid movement are culturally honourably concerned with Just War practices.

The ANC would like to make the following request to the Apartheid Government in accordance to the principles Just War mutually agreed rules of combat.

Would the Apartheid Government provide political and financial support for the ANC to launch a non-violent cultural and political campaign to stop the unconscious African 'swart gevaar' breeding-war population explosion², to

¹ Verwoerd described the motives, practices and policies for apartheid, aka separate development, or Harmonious Multi-Community Development (Dr. Eiselen, W.W.M., "Harmonious Multi-Community Development", in Optima, Mar. 1959, p.1. Dr. Eiselen was at that time Secretary for Bantu Administration and Development.), and Live and Let Live (Address by the South African Prime Minister, Dr. H.F. Verwoerd, address to the SA Club, London, in Fact Paper 91, Apr. 1961, p.14) in depth, in the submissions to the ICJ on S.W. Africa, about the "superiority of numbers of the Natives" (1964-01-10: ICJ: Ibid (www.icj-cij.org): Counter-Memorial filed by Gov. of the Rep. of S. Africa (Books I-IV), p.463).

² SAIRR Surveys, repeatedly document Apartheid authorities concerns with rapid black population growth as causal factors for socio-economic and political realities:

* In the 1989 SAIRR Race Relations Report, we are informed that the Chairman of the Council for Population Development, Professor JP de Lange, claimed that population growth was South Africa's "ticking time bomb", and South Africa within two decades South Africa would find itself

encourage Africans to give up their cultural r-selected reproductive cultural behaviour: large number of offspring with minimal investments in offspring; and adopt Europeans K-selected reproductive strategy: a small number of offspring and invest heavily in each.

Not only shall the African individuals who adopt such a responsible procreation strategy receive political benefits; but African children born from such responsible African parents, shall benefit psychologically, economically, and emotionally, and such benefits shall further encourage other Africans to adopt such procreation behaviours for the benefit of their children.

With your help, the ANCYL hope to enact a cultural revolution, for the benefit of African children.

Consequently, would the Apartheid Government, as a first step, be willing to provide the Political Franchise Incentive to Africans who are willing to adopt a responsible K-selected reproductive strategy, by granting such Africans the right to vote in National Elections, and secondly a willingness to negotiate the granting to such K-Africans of full 'equal rights'?

We look forward to hearing from you.

Nelson Mandela, ANCYL Leader

in a dilemma where its resources and socio-economic capabilities would be insufficient for its population, which would give rise to total social disintegration, unemployment, poverty, and misery which would become unmanageable, even in the best of constitutional dispensations. He urgently urged a birth rate of 2.1 or less children per woman per year. The Population Development Program recognized that a direct relationship existed between standard of living, an effective family planning and population growth.

* In a 1992/93 Race Relations Survey by the South African Institute of Race Relations (SAIRR), we are told that the high population growth is the cause of growth in poverty, unemployment and squatter camps, and most of the serious problems in South Africa; Population pressures are destroying the environment; the IFP and FRD call for ethics of 2 children per family as urgent population control priority; Population Growth outstrips Economic Growth for many years, and blacks avoid participation in family planning programs.

- Cooper C, et.al, Race Relations Survey 1989/90, (Jhb: SAIRR) 1990.

- Cooper, C et.al., Race Relations Survey 1992/93, (Jhb: SAIRR) 1993.

I personally imagine, that the response from Prime Minister Verwoerd and the Apartheid National Party government would have been proactive towards the ANCYL's offer to resolve issues of direct concern to the Apartheid Government's motivations for establishing Apartheid.

If SwissCham SA agree with my working hypothesis conclusion; I request Swiss Cham ask Former Pres. FW de Klerk the following questions:

- 1. Prove his optimism by clarifying the reasons for FW de Klerk Foundation's endorsement of SA Constitutional Courts corruption in Alien v Afriforum's application for Review of SCA's 'Kill Boere' agreement & SA's Truth and Reconciliation Fraud?**
- 2. Once a European Indigenous Rights Code of Honour Tribunal is established, should it order the assassination of FW de Klerk, for his refusal to advocate that South Africa's Flat Earth 'War is Peace' Whore legislation and treaties enacted by him and his dishonourable European predecessors, be resolved; in terms of their failure to address the overpopulation and overconsumption roles contributing to Scarcity, as an underlying cause of conflict?**

In **Business Report: *FW de Klerk: the pessimists are wrong***¹, Former President FW de Klerk is alleged to have said – among others – that:

“SA was regarded as an international model for democracy, constitutionalism, human rights and the rule of law. ... the good news, is that government is increasingly aware of its own shortcomings and is in the process of adopting realistic plans to address them, under the guidance of our National Planning Commission - which is led by former finance minister Trevor Manuel.

South Africa will succeed - provided that we can work together as South Africans to support our Constitution; to demand the rights that it guarantees; and to achieve the vision of human dignity, equality and enjoyment of human rights and freedoms that it articulates.

So the next time you see negative headlines about South Africa, I would invite you all to look a little deeper at the picture and consider the enormous potential that our country offers. I, personally, am confident that we South Africans will once again prove that the pessimists are wrong.”

In recent correspondence to Anders Breivik², informing him of the Indigenous Rights Protest Demands of Attawapiskat Chief Theresa Spence and the Idle No

¹ <http://www.iol.co.za/business/business-news/fw-de-klerk-the-pessimists-are-wrong-1.1457026#.UQJtZB2-q7k>

More³ Red People's Indigenous Rights Movement; I suggested that: If we are to establish a credible International European Code of Honour, we should demand the assassination of any European leader who (a) legislates Flat Earth 'War is Peace' Whore Tragedy of the Constitutional Commons Suicide Pacts, i.e. a 'Peace Treaty' which ignores confronting the Scarcity Combatant role of overpopulation and overconsumption to scarcity as an underlying cause of conflict; and/or (b) refuses to address and resolve Flat Earth 'War is Peace Whore' Treaties enacted by their dishonourable European predecessors who ignored confronting the Scarcity Combatant role of overpopulation and overconsumption to scarcity as an underlying cause of conflict

Unfortunately, neither the South African Government, Former President Nelson Mandela, or Archbishop Desmond Tutu, nor Former President De Klerk consider me worthy of a response to the dozens of letters and questions I have submitted to their offices. I am an Ecocentric South African of European descent, married to African American: Demian Emile Johnson. I am the only South African who – for the past 20 years – has exposed South Africa's Anthropocentric and Ideologically biased TRC Fraud, and advocated on behalf of a brutally honest **sincere and ecologically and scientifically credible** Truth and Reconciliation Commission, focussed on exposing the underlying psychological, cultural, racial and Scarcity induced factors contributing to Apartheid's Political violence.

[Q. 1] Evidence for ANC and Anti-Apartheid Movement 'Just War' Offers to Apartheid Government:

In April 2011, I filed numerous requests to African National Congress officials, South African and International organisations who were members of the Anti-Apartheid Movement.

I asked them for evidence that "Prior, or subsequent to, the ANC's M-Plan declaration of War against Apartheid: Did any EU Anti-Apartheid Organisation advise the ANC or any SA Anti-Apartheid Organisation to avoid/suspend the violent 'liberation struggle' campaign against the Apartheid Government, and to launch a non-violent cultural and political campaign to stop the African 'swart gevaar' breeding-war population explosion, to demonstrate the ANC's honourable Just War Just Cause Intentions?"

Documentation filed to SA & International Anti-Apartheid organisations is available here⁴. There was no response from South African organisations contacted.

² What would 'Indigenous Rights' King Anders Breivik of Norway's suggestion be to 'Multiculti' Queen Elisabeth II, in response to Indigenous Rights Protest Demands of Attawapiskat Chief Theresa Spence and the Idle No More Red People's Indigenous Rights Movement? <http://ecofeminist-v-breivik.weebly.com/rh-18-jan-2013.html>

³ <http://idlenomore.ca/>

⁴ http://jussanguinis.weebly.com/1/post/2011/04/110418_eu-aam.html

Swiss and British authorities responded that they were unaware of evidence of any ANC or ANCYL efforts to address Apartheids 'Swart Gevaar' concerns by means of a non-violent cultural campaign, or similar.

[Q. 2] Alien on Pale Blue Dot v. Afriforum et al Constitutional Court Application:

On 28 November 2012, I filed *Alien on Pale Blue Dot v. Afriforum et al*, Application to the SA Constitutional Court, for (A) Review of the (i) Supreme Court of Appeal Afriforum v. Malema "Kill Boere" Mediation Agreement; (ii) TRC's Tragedy of Constitutional Commons Suicide Pact; (B) a Declaratory Order that a Credible Proactive Peace Plan requires confronting the overpopulation and overconsumption factors contributing to Scarcity as a Cause of Violent Conflict; or alternatively (C) To order all South African's to prepare for SA's Ethnic and Class Race War in the in the impending Peak Non-renewable Natural Resources (NNR) Scarcity induced collapse of industrial civilization.

The respondents are: Afriforum, Transvaal Agricultural Union, Julius Malema, African National Congress, Archbishop Desmond Tutu, Former President Nelson Mandela, Former President FW de Klerk, CRL Rights Commission, Norwegian Nobel Committee: Chair, Central Intelligence Agency: Director, David Petraeus.

All documentation is available here⁵. The SA Constitutional Court refuses to process the application.

[Q 3] European Code of Honour to Assassinate European 'War is Peace' Whore Leaders:

The letter to Mr. Breivik -- **Request Clarification: What would 'Indigenous Rights' King Anders Breivik of Norway's suggestion be to 'Multiculti' Queen Elisabeth II, in response to Indigenous Rights Protest Demands of Attawapiskat Chief Theresa Spence and the Idle No More Red People's Indigenous Rights Movement?** – is available here⁶.

²³ * 0 children, consumption > 20 gha ((1 gha) x 20) | * 1 child, consumption > 1 gha ((1 gha (2007))

* 2 children, consumption > 0.05 gha (1 gha ÷ 20) | | * 3 child, consumption > 0.025 gha (1 gha ÷ 40)

- etc

²⁴ A biocapacity of 1 gha assumes that 40% of land is set aside for other species.

²⁵ In 2006, the average biologically productive area (biocapacity) per person worldwide was approximately 1.8 global hectares (gha) per capita, which assumes that no land is set aside for other species.

²⁶ Bhutan is seen as a model for proactive conservation initiatives. The Kingdom has received international acclaim for its commitment to the maintenance of its biodiversity. This is reflected in the decision to maintain at least sixty percent of the land area under forest cover, to designate more than 40% of its territory as national parks, reserves and other protected areas, and most recently to identify a further nine percent of land area as biodiversity corridors linking the protected areas. Environmental conservation has been placed at the core of the nation's development strategy, the middle path. It is not treated as a sector but rather as a set of concerns that must be mainstreamed in Bhutan's overall approach to development planning and to be buttressed by the force of law. - "Parks of Bhutan". Bhutan Trust Fund for Environmental Conservation online. Bhutan Trust Fund. Retrieved 2011-03-26.

²⁷ Murtaugh Paul (31 July 2009): *Family Planning: A Major Env. Emphasis*, Oregon University <http://oregonstate.edu/ua/ncs/archives/2009/jul/family-planning-major-environmental-emphasis>

²⁸ * 0 children, consumption < 20 gha ((1 gha) x 20) | * 1 child, consumption < 1 gha ((1 gha (2007))

* 2 children, consumption < 0.05 gha (1 gha ÷ 20) | * 3 child, consumption < 0.025 gha (1 gha ÷ 40)

The Green President's sustainable security legislative duty is to veto all legislation that obstructs, or fails to reduce, the nation's Scarcity combatant's procreation and/or consumption path to sustainability, based upon Guerrilla law sustainable rights and sustainable security principles.

The Green Presidents sustainable security executive duty is to protect the Constitution, root out all corruption, by taking over the duty of executive supervision of the Ministry of Police and Ministry of Justice, including the appointment of all Magistrates and Justices. Magistrates and Judges shall be required to ascertain, verify, and transparently declare – as part of the court record - the Eco-Innocent²⁹ (sustainable) or Scarcity-Combatant³⁰ (unsustainable) status of all parties (including the Judge, legal representatives and State Representatives) to any court proceeding; including consideration of such status, where relevant to the legal proceedings. Any Eco-Innocent is entitled to be tried by an Eco-Innocent Prosecutor and Judge, and in any dispute with a Scarcity Combatant, may require the court to take notice of Scarcity Combatants behaviour as a relevant³¹ aggravating factor to Scarcity related socio-political problems, such as: crime, violence, unemployment, poverty, food shortages, inflation, political instability, loss of civil rights, conformism, political correctness, vanishing species, pollution, urban sprawl, toxic waste, energy depletion.

An individual can only run for Green President, as (A) an Independent or from a Political Party, which practices 100% transparency disclosure of all campaign contributions, and (B) whose procreation and consumption lifestyle qualifies them as an Eco-Innocent³².

Anders Brievik is correct: Europe is at war. Not only Europe, but the World is at War. I consider the economic, political and military war between the Political Left and Right to be a deliberate distraction, from the real war that is being waged by both the 'Consumptionist' Left and Right's support for Industrial Civilizations world war³³ against nature.

Industrial Civilization's Exponential Economic Growth Breeding and Consumption³⁴ War *Scarcity Combatants* are at war with each other (Left v Right), Eco-Innocents, and all other species for their preferential access to , and control of, nature's finite resources.

Peak NNR: Scarcity & Collapse of Industrial Civilization:

Global Non-Renewable Natural Resource (NNR) Scarcity Analysis is based upon Mr. Chris Clugston's analysis of the criticality and scarcity associated with each of the 89 analyzed NNRs, using data from USGS, EIA, BEA, BLS, Fed, CBO, FBI, IEA, UN, World Bank, etc; and concludes in general that "absent some combination of immediate and drastic reductions in our global NNR utilization levels, ... we will experience escalating international and intranational conflicts during the coming decades over increasingly scarce NNR's, which will devolve into global societal collapse, almost certainly by the year 2050."

Global NNR Scarcity Analysis summarizes global criticality and scarcity associated with each of the 89 analyzed NNRs: (a) An overwhelming majority, 63 of the 89 analyzed NNRs, were considered "scarce" globally in 2008, immediately prior to the Great Recession; (b) A significant number, 28 of the 89 analyzed NNRs have peaked: are "almost certain" to remain scarce permanently going forward; and a sizeable number, 16 of the 89 analyzed NNRs, will "likely" remain scarce permanently; and (c) Global extraction/production levels associated with 39 of the 89 analyzed NNRs, are considered "at risk".

At risk are: (a) Antimony: 8 yrs to Global Reserves exhaustion (used for starter lights ignition batteries in cars and trucks); (b) Bauxite: 40 years (only economically viable feedstock for aluminium); (c) Bismuth: 17 years (non-toxic substitute for lead in solder and plumbing fixtures); (d) Cadmium: 25 years; (e) Chromium: 26 years (stainless steel, jet engines and gas turbines); (f) Coal: 40 years (electricity generation); (g) Cobalt: 26 years (gas turbine blades, jet aircraft engines, batteries); (h) Copper: 27 years; (i) Fluorspar: 23 years (feedstock for fluorine bearing chemicals, aluminium and uranium processing); (j) Graphite (Natural): 23 years; (k) Iron Ore: 15 years (only feedstock for iron and steel); (l) Lead: 17 years; (m) Lithium: 8 years (aircraft parts, mobile phones, batteries for electrical vehicles); (n) Manganese: 17 years (stainless steel, gasoline additive, dry cell batteries) ; (o) Molybdenum: 20 years (aircraft parts, electrical contacts, industrial motors, tool steels); (p) Natural Gas: 34 years; (q) Nickel: 30 years; (r) Niobium: 15 years (jet and rocket engines, turbines, superconducting magnets); (s) Oil: 39 years; (t) Rhenium: 22 years (petroleum refining, jet engines, gas turbine blades); (u) Silver:

Reflections (2005); Zerzan, John: Running on Emptiness: The Pathology of Civilization (2008); Zerzan, John: Twilight of the Machines (2008)

11 years; (v) Thallium: 38 years; (w) Tin: 18 years; (x) Tungsten: 32 years; (y) Uranium: 34 years (primary energy source, weapons); (z) Zinc: 13 years; (aa) Zirconium: 19 years (nuclear power plants, jet engines, gas turbine blades).

More info on Mr. Clugston's *Scarcity* is here³⁵, and the related report submitted to Anglo American, Lonmin and the Marikana Commission: *Are Eco-Illiterate Mining CEO's a Threat to National Security*, is here³⁶.

I look forward to hearing from you

Respectfully,
