Sirs & Ladies,

Request for Info: Contact Details for SA Psychologist with theoretical and kinaesthetic experience in: Radical Honesty, Gestalt, Psychodrama, Psychotronics, Political and Legal Activism against the Edward Bernaysian Psychological Tyranny as depicted in 'Century of the Self', 'Marketing of Madness', 'Psychiatry: An Industry of Death'.

I am a member of the Radical Honesty culture, founded by Brad Blanton. For the past 20 odd years I have been an honesty-environmentalist activist, with greater personal responsibility effectiveness since I joined the Radical Honesty culture in 1999. I spent 14 years travelling around the world with a backpack and in March 2002 was deported from the USA to South Africa. To make a long story short, my sister-in-law a medical doctor, who does pharmaceutical product testing has in the past pressured my mother to have me institutionalized and drugged, because she thinks some of my ideas and experiences are insane. I am unaware of her definition for 'insanity'. I mentored under criminologist and psychologist Dr. Richard Korn in California and founder of Radical Honesty in Virginia, Dr. Brad Blanton, but have no credentials. My parents are not psychology experts whatsoever, but feel pressured by my sister-in-law's alleged academic university medical credentials.

About a week ago I had a disagreement with my mother, who was upset about me shaving my hair. The argument escalated and the end result was a meeting where my parents decided that it may be a good idea for me to see a psychologist. I stated I had no problem whatsoever seeing a psychologist, but I agree with Brad Blanton that 'conformity wonk' psychologists are not worth the toxic two-faced political correct intellectual diatribe air they breath. They are nothing but 'Marketing of Madness' financial parasites.

I have no problem whatsoever seriously enquiring into the possibility that I may be 'crazy' or 'insane', although I am not aware that psychology is an exact science. If I am insane, I require any conclusions about my alleged insanity to be proven upon scientific evidence, not theoretical dogmatic 'conformity wonk' thumbsucking. So I require any psychologist that I see to clearly and succinctly provide their particular definition for 'sanity' and 'insanity' prior to our discussion; and additionally to be willing to consider the possibility that should they fit their own definition of insanity; to order their own institutionalization. My definition of highly evolved sanity is the ability to take personal responsibility for my thoughts, actions, decisions no matter how politically incorrect they may be perceived by some conformity wonk, etc; including the honourable capability to admit when I have erred. I have met many very strange people with very strange ideas, but I have never been willing to conclude that any of them are to be classified legally 'insane'; only that their minds have been hijacked by memplexes at lower level of belief consciousness.

I told my father that I would attempt to ascertain whether there is a psychologist in South Africa with the relevant skills required to be able to kinaesthetically understand my perspective and ideas; as for example shared with the Capetown Magistrates Court in this document: Iatrogenic Medical Eugenics Industrial Complex¹.

I would appreciate it if you could inform me whether there is a psychologist in South Africa with the following experience, and if so, of their contact details:

Critical Psychology Experience:

- ❖ Radical Honesty (Brad Blanton, Ph.D - Practicing Radical Honesty², et al)
- ❖ Psychodrama (Joseph Moreno) and Gestalt Therapy (Frits Perls)

Any and all Psychologists who have Practiced Political and Legal Activism Against Psychological Elite's Edward Bernaysian Political Correct Tyranny; to demand such Tyrannical Psychological Elite practice an Unequivocal Commitment to Brutal Honesty, as the foundation of Sanity and Mental Health:

- ❖ Century of the Self⁶, by Adam Curtis
- ❖ Marketing of Madness: Are We All Insane: The Truth about Psychotropic Drugs⁷
- ❖ Psychiatry: An Industry of Death⁸
- ❖ Dr. Nick Begich: Are You a Manchurian Candidate?⁹

Any and all Psychologists who have Practiced Political and Legal Activism Against Overpopulation as a Fundamental Root cause of Resource Wars (local, national and international), Poverty, Inflation and Terrorism:

- ❖ Channel 4: Overpopulation Causes Poverty Crisis¹⁰
- ❖ Ecopsychology, by John Seed¹¹
- ❖ List of Authorities in: Radical Honesty Amicus Curiae In Support of a Population Policy Common Sense Interpretation of the Promotion of National Unity and Reconciliation Act, 34 of 1995¹²

Any and all Psychologists who have Practiced Political and Legal Activism Against the Tyranny of Corporate Academic Corruption; a direct result of the Tragedy of the Commons Effect, individuals who lack honour and integrity but prefer to exploit the social trap for their personal benefit, at the expense of the ecological carrying capacity of nature.

Social trap is a term used by psychologists to describe a situation in which a group of people act to obtain short-term individual gains, which in the long run leads to a loss for the group as a whole. Examples of social traps include overfishing, the near-extinction of the American bison, energy "brownout" and "blackout" power outages during periods of extreme temperatures, the overgrazing of cattle on the Sahelian Desert, and the destruction of the rainforest by logging interests and agriculture.

The term social trap was first introduced to the scientific community by John Platt's 1973 paper in *American Psychologist*,¹³ building upon the concept of the "tragedy of the commons" in Garrett Hardin's pivotal article in *Science* (1968),¹⁴ Platt and others in the seminar applied behavioral psychology concepts to actions of people operating in social traps. By applying the findings of basic research on "schedules of operant reinforcement" (B.F. Skinner 1938, 1948, 1953, 1957; Keller and Schoenfeld, 1950), Platt recognized that individuals operating for short-term positive gain ("reinforcement") had a tendency to over-exploit a resource, which led to a long-term overall loss to society.
